Preferred Network

- Provides access to the largest PPO and HMO provider network in the state
- Members have access to participating physicians and providers in New Jersey, Pennsylvania, and Delaware
- Access to all hospitals in New Jersey, with the exception of the University of Medicine and Dentistry (UMDNJ)
- Employers have the option to elect a National Access Rider to obtain service throughout the continental United States at the in-network benefit level
- Access to the three main labs in NJ: Labcorp, Quest, and Bio Reference

Value Network

- Provides access to approximately 71% of the total New Jersey-based Preferred Network
- Comprised only of New Jersey-based physicians and ancillary providers to serve New Jersey-based employer groups
- Access to the highest quality hospitals in New Jersey
- Offers a lower price point, making health insurance more affordable
- Access to the three main labs in NJ: Labcorp, Quest, and Bio Reference

Finding a provider

Through amerihealthexpress.com, finding a Preferred or Value Network provider is easy. As illustrated above, using the provider finder tool, Value Network members will select their plan from the drop-down list to view providers and facilities in the network. Providers will be able to search NaviNet® and refer members to other Value Network providers and facilities.
